

## INTEGRATED MANAGEMENT SYSTEM (IMS)

### QUALITY, HEALTH, SAFETY, ENVIRONMENTAL AND ENERGY (QHSEE) POLICY

The sustainable business success of Altaaqa Global depends on our ability to continually improve the quality of our services and products while protecting our people, the environment, and our stakeholders.

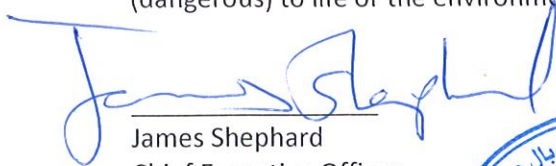

To achieve this Altaaqa Global has developed and implemented an integrated management system that commits to:

- Communicating our QHSEE policy to our employee , contractors, customers and stakeholders
- Identify, manage, and mitigate risks associated with our operations that could impact people, the environment or plant and equipment.
- Meet specified customer requirements to ensure ongoing customer satisfaction.
- Identify & comply with all relevant health, safety, environmental and energy legislative requirements
- Design and operate energy efficient plants, through purchase of energy-efficient products that can work harmoniously with other renewable energy sources.
- Empower our employee's to perform their job safely by providing training and development programs specific to their required skills.
- Monitor our QHSEE performance bi-annually and evaluate our IMS system annually to ensure continual improvement
- Consult, listen, and respond to interested parties to ensure their input is included in the QHSEE decision making process impacting our operations.

Our leadership team recognises the importance of a safety culture and commits to providing the resources and support required to make our workplaces and activities safe.

#### ATG employees, contractors :

- Are required to adopt safe work practices and comply with ATG QHSEE policies and procedures.
- Report any safety hazards or unsafe work practices.
- Have responsibility and authority to stop any unsafe work that they deem to be hazardous (dangerous) to life or the environment.
